

Table 4. Linear regression of Cortisol AUC, including age, gender and Obesity Status (Cole et al., 2000) as covariates

	β-coefficient (95% ci)	p-value
Age	0.062 (0.021, 0.103)	0.003
Gender (males vs. females)	-0.161 (-0.335, 0.011)	0.067
Obesity Status (obese vs. Normal weight)	-0.004 (-0.241, 0.233)	0.972
